

canopy awnings

made to measure

Canopies are a fabric covering applied over an aluminium skeletal frame that can be situated over windows, doors, walkways, etc. They add the finishing touch to any building with their wide selection of fixed or retractable shapes to suit just about any style.

They can also be used to promote your shop, restaurant or business with added sign writing and increase awareness by incorporating illuminate lighting. Canopies are envied in the domestic or commercial market for adding that touch of European style to the home or commercial buildings such as motels, hotels, resorts, restaurants, recreational centres, shop fronts, etc.

Dutch hood canopy

Melbourne Shade System's Dutch hoods and canopies are constructed with extruded aluminium frames and can be covered in a range of fabrics, from canvas, acrylic canvas, shade mesh and PVC coated textiles, for maximum sun and weather protection. Over 100 colours available to suit any domestic or commercial building environment or to promote a corporate image. The awnings are designed so if the fabric is damaged or a new colour desired it can be replaced with relative ease.

The components used in Dutch Hoods and Canopies are designed to be long lasting and low maintenance. These items are made from rust-free extruded anodised aluminium and the extruded PVC components contain ultraviolet stabilised polymers.

Canopy awnings are available in over 12 basic shapes. Dutch hoods may be installed as a fixed or retractable structure. Special canopy shapes can be manufactured on a made to order basis
