

Wedge Canopy Awning

Simple architecturally designed Wedge Canopy Awnings are ideal solution for all year round shading and rain protection of the doorway or shop front. Melbourne Shade System's Wedge Canopy awnings are constructed with fixed welded aluminium frames.

Custom made canopy comes in any size up to 6000mm long with a maximum projection of 1800mm.

Wedge Canopies can be covered in a range of fabrics, from canvas, acrylic canvas, shade mesh and PVC coated textiles, for maximum sun and weather protection.

Over 100 colours available to suit any domestic or commercial building environment or to promote a corporate image.

The Wedge Canopies are designed so if the fabric is damaged or a new colour desired it can be replaced with relative ease.
