Retractable Roof System

Soft Flat

Soft rafter profiles (120mmx60mm) have been designed with unique Water Guard side channels and allow for projections up to 6000 milimeters per system.

Widths are customised according to site requirements and available in any size up to 12000 milimeters.

Soft system offers up to 72 sqm of protection at the touch of a button but when required linking multiple systems is also possible and made easy by our patented Storm Channel joining system that ensures 100% waterproof join every time

maximum width: 12000 mm

maximum extension: 6000 mm
